QCC PLANS IN RELATION TO THE COVID-19 PANDEMIC

Clearly the Coronavirus (COVID-19) has sparked an emergency across our community & the World. A situation that has developed and changes weekly. There can be no denying the exponential growth in this virus’s spread, so as you are no doubt aware, there are a number of government restrictions and health recommendations which are already in place, and new ones being introduced at times, we seem to have respectable control of the Virus in Queensland, but this still will affect the way the Queensland Corvette Club Inc. can operate in the future.

The Management Committee conveys to all QCC Members that they must comply with all the up to date Government Regulations/Restrictions & respect your other Members & their Family on all Events/Runs going into the future.

Hi Corvetters, apologies for the lateness of the June Vetteletter, all due to a busy month personally/work and with all the Club Events. But here it is and hope you enjoy reading this month’s Vetteletter.

Don’t forget your Membership Fees are Due the end of June and if not paid by August AGM no more Vetteletter’s or emails, also if you have any changes, please notify us so that the database can be updated. Only 1 more meeting before the AGM, so if you feel that you can help the club by taking up a committee position or understudy please come forward and let us know. There will be nomination forms with the July Vetteletter.

**David Hack Classic** – Toowoomba Aerodrome, was an early start and quite chilly I went with the convertible top down and was quite cold by the time we reached Toowoomba. We had a total of 12 Vette’s it was a sunny and fantastic day. **Photos Page 16.**

**Mac’s Bridge** – The Rifle Range Belmont, this was an exceptionally large event with 100’s of vehicles attending. There were about 6 corvettes from our club with a total of approximately 12 Vette’s all together. **Photos Page 17.**

Then our Main Event of the year ‘Corvettes on the Coast 2021’ @ Carrara Markets Events Arena. This was our first time at this Venue which everyone seemed to approve of. We ended up with 33 Corvettes on display as there were 4 break downs & 2 no shows. Being our first time here, we have now been able to work out fitting more Vette’s next year. The weather was terrific the foot traffic was enormous and all in all a great day, we had top quality Vette’s on show and would like to say a big THANKYOU for the support to all entrants. More thanks to everyone that helped leading up to and on the day, this certainly made my job much easier, our Sponsors Performax, Shannons & Mothers + our 2 Charities Camp Quality & Wounded Heroes for supporting the Club. Also need to thank Mia & her husband Paul from Carrara Markets for having us for the day as they were pleased with the way the Club handled and presented the show. Around 2.30 we had our trophy presentation, handing out 20 lovely trophies to our winners. **Photos Pages 19 & 20.**

**CANCELLED EVENT** – Please note that the Drivers Parade Lap @ Willowbank Raceway has been cancelled due to Steve Bettes not being able to fit it within their schedule this year. Thankyou to the 12 Club Members & the 2 Mustang Owners that put there hands up to support and hopefully it may go ahead next year.

Please remember to read your Save The Date and the upcoming Events pages, hopefully we can catch up on a run or two soon. All the best for the Month, be safe.

Drive you Dream.

2022 GMSV C8 Corvette Pricing

The iconic Chevrolet Corvette – the USA’s answer to Ferrari and Porsche supercars – will be priced between $145,000 and $175,000 plus on-road costs when it arrives in Australian showrooms at the end of this year.

While it will be one of the most expensive cars to come out of North America, the V8-powered mid-engine Chevrolet Corvette will cost about half the price of a Porsche 911 and a fraction of the cost of a Ferrari, despite offering similar acceleration and performance.

Previous versions of the Chevrolet Corvette were imported and converted locally, however, this is the first factory-built right-hand-drive Chevrolet Corvette to be sold in Australia in the 68-year history of the brand.

All Chevrolet Corvette models sold in Australia will initially be powered by a 6.2-litre V8 (370kW/637Nm) paired to an eight-speed dual-clutch automatic that drives the rear wheels.

Overseas reports claim Chevrolet is also working on even faster versions of the Corvette, using old-school supercharger or turbocharger technology – or even hybrid or electric power. However, those plans are yet to be confirmed.

As it is today, the new model is the fastest Corvette to date, accelerating from 0 to 100kmh in a Porsche-quick 3 seconds. Overseas media have reported 0 to 60mph (96kmh) times of 2.8 seconds.
The Chevrolet Corvette will be sold through a newly established network of General Motors Specialty Vehicles (GMSV) dealers, most of which are former Holden outlets.

GMSV says it will have 57 dealers nationally, all of which will sell the Corvette alongside the Chevrolet Silverado pick-up – which is converted to right-hand-drive to factory standards by the Walkinshaw Automotive Group, the former parent company of Holden Special Vehicles.

GMSV says it has opted for the dearer versions of the Corvette; all models sold locally will have a fighter plane-style heads-up display which reflects critical information into the windscreen in the driver’s line of sight, as well as a premium 14-speaker audio system.

Australian models will also come equipped with the Z51 Performance Pack (optional in the US) which includes a dual-mode exhaust, magnetically controlled suspension, larger Brembo brakes, an electronically controlled limited-slip differential, front and rear wings, extra cooling, and a “sling shot” rear axle ratio.

Australian-delivered cars will also come standard with technology that lifts the front suspension at the press of a button at low speeds, so the front bumper does not scrape on steep driveways.

Meanwhile, the Chevrolet Corvette Carbon Edition will gain “hand-picked” interior trims, premium wheels, a unique brake calliper package, an exclusive build plate, and “owners pack” (the details for which are yet to be released).

In a media statement issued today, the head of GMSV in Australia, Jo Stogiannis, a former senior Holden executive, said: “The Corvette is one of the world’s most recognisable sports cars and over-delivers (on) performance expected of such a machine. It is the epitome of a true icon as it has heritage, performance and unparalleled desirability – generation after generation.”

Ms Stogiannis said there was “overwhelming feedback ... that our intended customers are performance enthusiasts” and “they want to have the ability to experience the C8 Corvette to its fullest potential”.

Cooly Rocks On is back to rock IN 2021!

Save the date / 9 – 13 June 2021.

Cooly Rocks On has evolved into Australia’s largest Rock ‘n’ Roll and nostalgia festival. A signature event on Queensland’s calendar, the festival attracts thousands of Rock ‘n’ Roll and vintage car and bike enthusiasts looking to celebrate the music, memories, and moments of the 50s, 60s and 70s. The beachside destination comes to life across five action-packed days with visitors travelling from near and far to experience the annual June pilgrimage of yesteryear.

In 2021, Cooly Rocks On will add even more action to the program by welcoming the spirit of VIVA Surfers Paradise, with five days of Elvis activity to be added into an already bursting program. The Elvis Precinct will reappear in the picturesque beachside destination during Cooly Rocks On and feature world-class headliner Elvis Tribute Artists and the Ultimate Elvis Tribute Artist Contest. The festival will continue to offer an exclusive VIP Legends Pass, providing pass holders with the ultimate Elvis inspired experience. Our VIP Legends Pass family will enjoy VIP seating, meet and greet, exclusive events throughout the festival, a themed VIP bar and a series of special ‘king’ style gifts just to name a few.

So, get your cars, dancing shoes and best outfits ready for Cooly Rocks On 2021.
